In GASES & WELDING are dedicated to providing all types of gases for industry and welding equipment.

We are existed in Equatorial Guinea since 2004, serving our customers.

We are the only company with own production of acetylene in the country, besides being the only one manufacture of liquid oxygen and nitrogen, with local production and high purity.

We are also able to produce argon mixtures as per standards or specifications provided by the customer.

We are the only company in the country that can fill customer owned cylinders in acetylene, nitrogen, argon, CO2, CO2 and refrigerant mixtures (fluorinated gases).

All our products are governed by European standards and meet CE certification.

Our clients are most important to us. Therefore, we offer a personalized service, advising them at all times for their full satisfaction with our products.
