MOSAIQUE ENGINEERING SA is a multidisciplinary consulting firm with over 20 years of experience in the respective fields of its founders. MOSAIQUE Engineering is thus recognized as a specialist in building, infrastructure and urban development.

Around the core of the company, a working group of consultants and experts in engineering enabled the company to expand the fields of activities to water resources and energy management as well as socio-economic studies.

MOSAIQUE ENGINEERING covers a large range of services and could act throughout all the stages of a project :

Preliminary and feasibility studies

Project design

Pre design studies, development studies and tender documents arrangements

Cost estimation, budgeting and financial arrangements

Project management

Tender opening and contract drafting

Control, monitoring and management

Assistance to commissioning
