RoyalGate Energy is an African independent oil and gas company dedicated to developing Africa’s great untapped oil and gas prospects. We seek to build a portfolio of oil and gas exploration, development and production assets all over the continent, and to execute sustainable projects that strengthen the economies and societies of the places we work.

From our offices in Houston, Accra, Malabo and Luanda, RoyalGate Energy is operating assets in Equatorial Guinea and Ghana and evaluating new opportunities throughout Africa. Sustainability and sound fiscal and operations management guide our business.

We signed our first production sharing contracts in Equatorial Guinea in 2013. In 2014 we expanded to Ghana and Angola. We are building a strong portfolio of assets across the continent and investing in the countries and communities in which we operate. As our footprint grows larger, our identity as an Africa-focused, development-driven company grows stronger.
